EXPERIENCE

Interface Developer at CQL via Remote

January 2023 to December 2024

- Built bespoke React component libraries with TypeScript using Salesforce to serve world-wide loyalty programs.
- Customized Shopify Liquid themes with designer provided Figma comps to ensure brand cohesion.
- Integrated Google A/B tests with Salesforce promotions and customer segments.
- Established a turn-key solution using XML markup to support automated import into the Salesforce ecosystem.
- Addressed critical ADA Compliance HTML/CSS3 elements on web and mobile design.

Front End Engineer at TaxSlayer in Augusta, GA

September 2021 to December 2022

- Triaged broken React elements and JavaScript libraries.
- Applied C#, HTML/CSS, React, and JavaScript alterations to in-house .NET MVC applications for yearly campaigns.
- Executed brand cohesive website and Pro software marketing campaigns with designer furnished Figma comps.
- Participated in daily standups, bi-weekly grooming sessions, and adapted to SCRUM/AGILE/Kanban methodologies.

Platform Integrations Specialist at GoCollect LLC in Charlotte, NC

March 2019 to April 2020

- Pushed test driven and versioned API Integration development through MVC PHP framework.
- Automated company onboarding process with Docker and Ansible.
- Prototype campaigns from wireframing mockups and push to UI implementation.
- Generated inventory app; Node.js and JavaScript in the backend, React on the front-end.
- Supplied documentation for app, onboarding, case studies, and customized code.

Software Engineer at Fast Growing Trees in Fort Mill, SC

January 2018 to February 2019

- Merged disparate PHP modules into a single governing module.
- Reduced overhead of using multiple third party ecommerce services.
- Interpreted SQL data with PHP returning metadata and stylizing with CSS and jQuery.
- Automated daily reporting for core operations with PHP, JavaScript, MySQL and MSSQL.

Web Developer at DigitalDerm Inc. via Telecommute

November 2015 to December 2017

- Migrated from GoDaddy hosting to AWS leading to a significant reduction in operation costs.
- Converted static HTML/CSS website for in-house web administration using Wordpress.
- Themed site with responsive design, materially increasing SEO ranking.
